

DECLARATION

to the treatment and processing of wood packaging material according to IPPC-Standards ISPM No. 15

Herewith the company FAIRFIX GmbH declares as the manufacturer and supplier of **FASTFIX** packaging boxes and the **CORFEX®** container storage system in the following:

1. We are an admitted and certificated processor of packaging wood and authorized to produce and mark wooden packaging products. For marking all our wooden packaging products only the official registration number DE-BY491530 is used, which was given us from the German "Institute of plant protection" with notification dated on 20.06.2016.
2. According to the regulations we are obliged to a complete documentation of the treated packaging wood delivered to us. With receipt of goods every load with the accompanying protocols of treatment is treated apart. **We guarantee, that all used packaging timber is heat treated by a minimum temperature of 56°C for 30 minutes, measured at the core of the timber.**
3. If timber is used at the production of our packaging products, at the delivery the respectively used load is shown on the delivery note as well on the invoice. This documentation guarantees a provable origin of the packaging wood.
4. To the production of our packaging system products mainly OSB (Oriented Strand Board) is used. In the directives of the ISPM No.15 regulations this material is declared as "Nonwood". The prescribed treatment of packaging wood is guaranteed by the production process. Therefore this wood panel product is admitted by the manufacturers to use it as wood packaging material.

Pleas note:

At all packaging system products and accessories supplied by us, it is only allowed to obstruct marked packaging wood according to IPPC-Standard ISPM No. 15. The use of other, not accordingly treated wood of every kind and form leads to the invalidity of our IPPC marking!
