CONTAINER
STORAGE
SYSTEM

Haven't you thought of optimizing the securing of cargo for a long time, and at the same time...

1. Different types of timber beams anchored in the container may break, slip out or damage the container
2. There is a high safety risk for the cargo
3. There is the risk of transport damages in case of non-stackable packages and sensible goods

...saving time and money?

CORFEX, the new system standard applied for storing container cargo

- optimal storage space exploitation
- self-locking components
- tension-free mounting
- even pressure distribution on the container walls
- high transport safety
- sustainable materials: supports made of OSB/3, crossbars made of solid wood according to IPPC standard ISPM No. 15
- trouble-free disposal
- low unladen weight of the components
- ergonomic functioning
- high operational safety
- assembly/disassembly without any tools
- low-noise handling
- step-by-step assembly
- less storage space required due to standardized components

The patented container storage system makes it possible that your cargo is secured in a clever, ...

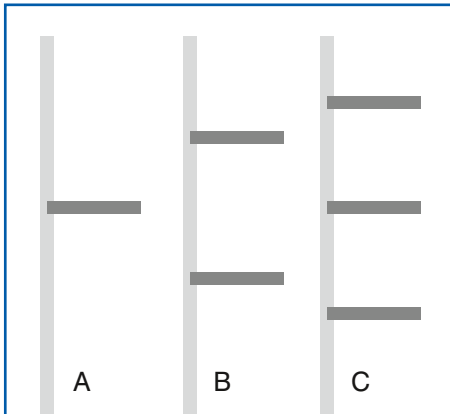

- 4. Creating loading levels, safe stacking of the cargo
- 5. Closing storage and loading gaps, securing the cargo
- 6. Partitioning loading parts (LCL)
- 7. Possible use of the storage space above vehicles

...quick and low-cost way

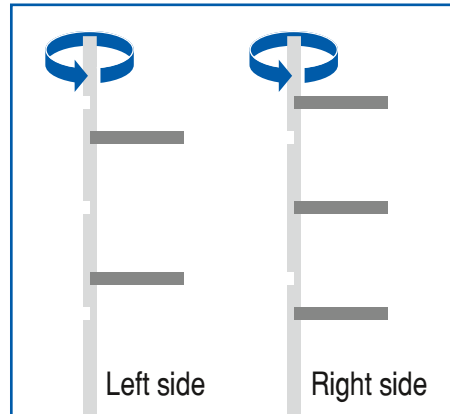

CORFEX, the container storage system offering almost unlimited possibilities...

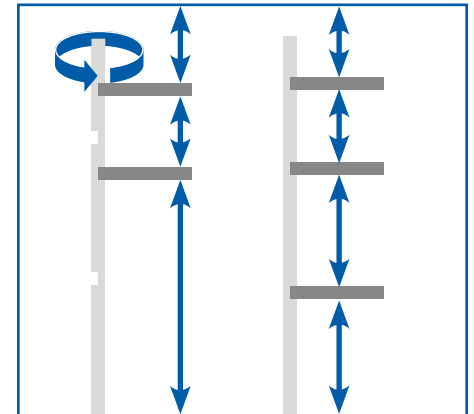

Unilateral CORFEX supports

Variant A: 1 crossbar = 2 levels
 Variant B: 2 crossbars = 3 levels
 Variant C: 3 crossbars = 4 levels

Bilateral CORFEX supports

Left side: 2 crossbars = 3 levels
 Right side: 1 crossbar = 2 levels
 and 3 crossbars = 4 levels

Customer-specific variants

We produce customer-specific supports for individual heights of the crossbars

...and substantial advantages:

no tools required

low-noise

ergonomic

reduced injury risk

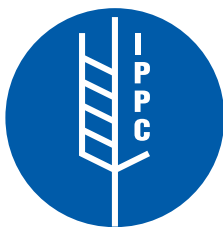

time-saving

reusable and recyclable

saving personnel costs

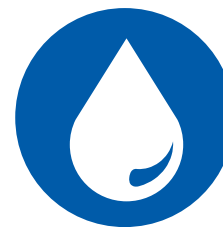

IPPC-compliant

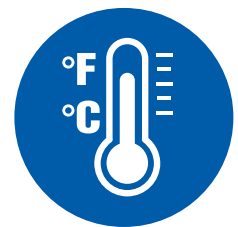

sustainable and ecological

high load capacity with reduced unladen weight

water-resistant

temperature-resistant
